

Insurance Announcement Sample

Today many health insurance companies cover the cost of acupuncture treatments. We accept all major insurances including Aetna, Blue Cross Blue Shield, Cigna, Humana, United Health Care, Veterans Affairs, Personal Injury and Worker's Compensation cases. Each of these insurers offer different plans to choose from, some of which include acupuncture benefits and some of which may not, but we will help you find out if your plan covers our services.

By contacting us today we can begin the process of verifying your insurance benefits through your insurance provider. Some of the answers that we will obtain for you are:

- Does your policy cover acupuncture?
- Does your coverage have any exclusions or limitations?
- Do you have in or out-of-network coverage?
- Do you have an annual deductible?
- Do you have a co-payment or co-insurance?
- Do you have an annual visit limit?

If your policy covers our treatments, we will bill your insurance provider for our services. If our services are not covered under your plan, then you will be informed of alternate payment options for future treatments during your consultation. We accept cash, check and most major credit cards.

Cash patients can enjoy big savings by purchasing an acupuncture package. Our packages include large discounts for pre-paying for your treatments. No matter what your financial situation is, we will tailor a treatment package if your insurance policy does not cover our services.

To learn more about office policies regarding payments and policies please contact our friendly staff. We will provide the service of verifying your insurance benefits, free of charge, today!
